DETAILED ACTION

Terminal Disclaimer

1. The terminal disclaimer filed on 8/1/06 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent No. 6,741,239 has been reviewed and is accepted. The terminal disclaimer has been recorded.
2. This application has been examined. The claims 1-17 are allowed.

Reasons For Allowance

3. The following is an examiner's statement of reasons for allowance: None of the cited art teach or suggest a power source control method comprising: causing a compulsory discharge device to be in an operation state to thereby control discharge so that a residual charge of a drive circuit is forcibly discharged by said compulsory discharge device before the voltage of said logic circuit power source becomes 0V as claims 1, 3 and 17; or upon detection of a voltage rise of said logic circuit power source, said voltage detecting device delays the output of a signal indicating the voltage rise for a fixed time until the voltage of said logic circuit power source becomes stable at a predetermined voltage, whereby together with causing said power source supply/interruption device to be in a power supply state, said compulsory discharge device is caused to be in an open state as claims 2, 4.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
